### A SACK OF CHICKENS.

#### It Gets Some Young Boys in Trouble

Day before yesterday Harry and Bob Gill, Bob McCrimmon, and John Gardner (an Indian boy) and Will Shattuck made a raid on Gilbert Briggs' hen house and bagged eleven chickens. One chicken was cooked by McCrimmon and devoured. The rest were sold and the boys then repaired to Chinatown and played poker with some Mongolians and naturally lost the money. All hands were arrested.

Shattuck turned "State's evidence" and was allowed to go. Shattuck says that there has been a crowd of boys stealing chickens for some time in Carson and that the organization has another branch. The case comes up tomorrow.

All the work is now laid onto Gardner, the Indian boy, and the rest will appear as witnesses.

### Tilby

The story of "Tilby" has aroused a great deal of controversy and few are indifferent to its merits or demerits. It has positive champions and equally positive opponents. It surprised many when it was announced that the novel was to be dramatized, when it was known that Tilby was to try her strength upon the dramatic, as she had upon the concert stage, surrounded by her old friends, Little Billie, Jecko, Taffy and the Laird. The engagement was awaited with great curiosity, which gave way to admiration, the theatre he filled to its capacity at each performance. The prudes held up their hands in horror at the easy unconventional life in the Latin quarter of Paris, but when they see the play, they are forced to admit that that sort of life is not without its charms.

### Not True.

It is not true that editor Lemmon will join the Palmer campaign.

That when Coffin withdrew from the Jones' case he gave Johnny his money back.

That Kersey will run for Assessor on the Silver ticket.

That the backers of Todhunter don't wish that new starting machine was on deck last Monday.

That women who talk scandal in Carson are going to organize a deaf mute club.

That "Tilby" isn't going to be the liveliest play that ever struck Carson.

That Barrester Brannan contemplates running for District Attorney.

That the Briggs' House dining hall, isn't the cosiest place to eat in Carson.

### A First Class Bilk.

An insignificant looking whelp going under the name of Dr. W. W. Perry, an alleged dentist, is the latest swindler to work this town. He remained here nearly a month and sneaked away on a night train. Before leaving he gave a check on a San Francisco bank in payment of his board bill. The check was protested. He also left a number of other creditors in the lurch. The swindling dentist is now somewhere in Utah, and without doubt working the same scheme he found so profitable here.

The State Dental Association should take steps to prevent Dr. Perry, swindler and passer of bogus checks, from carrying on his unlawful practices elsewhere.—Silver State.

### Rowdy Amusement.

A few evenings since a couple of rowdies with two women in a rock-away went charging about the town yelling and hooting and filling the air with profanity and abusing everybody they met. Several ladies were insulted by these toughs, and in some instances they drove their horses up on the sidewalk compelling the ladies to run for their lives. Two ladies, who were subjected to this treatment, fainted on the sidewalk. The relatives of the ladies say that if the city authorities can't prevent these outrages they will get out some shooting irons and use them.

### Keeping Lent.

The Reno papers print each a half-column of matter telling their subscribers how to keep Lent. It seems considerable space wasted, for the fact that people who don't care to keep Lent never bother to read these articles and people who do keep it know how anyway. With silver at its present notch a good many people really keep Lent all the year round.

St. Valentine's day is the next event and valentines will be in order. Cagwin & Noteware have foreseen the event and secured a choice stock of goods for the day.

Just as we figured yesterday, Coffin is not out of the Jones case.

### The Cathode Ray.

New York, Feb. 10.—The Sun's London cable says: A most startling discovery has been made, according to a dispatch from Rome, in connection with the investigation of Roentgen's new force in photography. Professor Salvioni of Perugia, read a paper before the Rome Medical Academy on Saturday, in which he described the optical instrument of his invention which enables the human eye, by means of Roentgen rays, to see through anything which those rays can penetrate. It is said that Salvioni produces this wonderful invention and by its means the physicians present were enabled to see the contents of a closed aluminum box. Unfortunately, no explanation is given of the means used to make the hitherto invisible rays perceptible to man's optic nerve.

London photographers have found that a convenient substitute for Cooks tubes is an ordinary incandescent lamp in which the filament has been broken. This improvised tube and an ordinary house electric current will enable any photographer to work on a small scale.

### Ex-Slaves Want Pensions.

Tokeka, Kan., Feb. 13.—An organization of ex-slaves was effected here yesterday by about fifty colored men for the purpose of making a demand on Congress for pensions. It is the purpose to make it of national scope. Of those in the meeting fully one-third have felt the lash.

The idea originated with an old colored man named G. W. Charles, who presided at the meeting. There are possible 1,500 ex-slaves here. The demands of the association are to take the form of a petition that will be addressed to Congress, asking pensions in the following schedule:

All over 70 years to get \$700 in cash and \$15 per month thereafter; all over 60 years, \$500 in cash and \$12 a month; all who were over 50 years at the time of the emancipation, \$300 and \$10 a month; all over one year at the time of the emancipation, \$100 cash and \$1 a month.

### Lost in the Shuffle.

One of our Republican contemporaries is inquiring why flags were not displayed on Feb. 12, out of respect to the anniversary of Lincoln's birth. It is because there is no law on the statute books of Nevada making the anniversary a non-judicial day.

In 1891 Senator Boyle introduced Senate Bill 86 making Feb. 12, a legal holiday. It passed both houses and was sent to Governor Coleord, March 19, for his signature. It has never been heard of since. It was not printed in the statutes enacted that session and it was not vetoed and not returned to the next session. No one seems able to throw any further light on the bill.

### MARRIED.

In Carson City, Nev., Feb. 12, 1896, Mr. James Furlong to Miss Theresa Pohl, at the residence of the bride's mother, Father Dermody officiating.

The APPEAL acknowledges the usual cake and wine.

### Born.

In Virginia City, Feb. 12, to the wife of Geo. I. Lammon Jr., a son. Weight 9 1/2 pounds.

They are making a great fuss about John Hayes Hammond. If a man with five thousand dollars a month can't afford to conform to the laws of the country he sucks his fat salary out of, he ought to sweat in jail until he picks up a little sense. He may be a good engineer, but he is a poor citizen.—Bodie Index.

### To Whom it May Concern.

This is to notify the public that my wife Romalda, has left my bed and board, and I will no longer be responsible for any debts contracted by her. She left my house on Jan. 11, and I have not seen her since.

### CHEAP CUSTOM WORK A DECEPTION.

A style of tailoring is rapidly gaining headway which is but an imposition upon the consumer and a detriment to the workman. The cheap custom work or what is called "special order work," is a shrewd dodge for the purpose of deceiving the customer into the belief that he is obtaining custom work at ready made prices. The real worth of custom work lies in the exactness of the fit, and the thoroughness in which it is made. Cheap custom work is therefore inferior to ready made work.

Large concerns, some also engaged in ready made work have grown up of late and depend for patronage upon retail stores, and have numerous agents scattered everywhere soliciting orders and gain trade because of the strikingly cheap prices offered for goods made to order. As a rule these agents seldom obtain an order twice from the same person.

It is about time that this scheme was exposed to the people and ABE COHN of the EMPORIUM shows up the fraud. If you want clothes that fit and are tried on as often as is necessary call at the EMPORIUM Court House Building, Carson City, Nevada.
